

MANMOHAN

Faridabad, Haryana, India — +91 99910243616 — manmohanmuduli458@gmail.com
linkedin.com/in/man-mohan-b88154342 — github.com/manmohan-01 — manmohan13.vercel.app

Professional Summary

Results-driven Software Engineer and BCA student with hands-on experience building Python and web-based applications using OOP principles and modern web technologies. Certified in Generative AI (Outskill) with foundational expertise in Prompt Engineering. Passionate about developing efficient, clean-code solutions and growing in the AI-powered technology landscape. Open to internships, freelance projects, and open-source collaborations.

Projects

Mini Bank System

Python — OOP — CLI

github.com/manmohan-01/Mini_Bank_Project

- Engineered a fully functional command-line banking application in Python using OOP principles, supporting account creation, deposits, withdrawals, and balance inquiries.
- Implemented modular, class-based architecture that improved code maintainability and demonstrated strong data-handling and logic-building skills.
- Delivered a clean, user-friendly CLI experience with structured error handling, ensuring reliable program flow across all core banking operations.

Rock Paper Scissors Game

HTML — CSS — JavaScript

final-rock-paper-scissors-game.netlify.app — github.com/manmohan-01/Rock_Paper_Scissors_Game

- Built an interactive browser-based game using vanilla JavaScript with real-time score tracking and dynamic DOM manipulation for a responsive user experience.
- Designed a fully responsive UI with CSS3 animations and smooth gameplay transitions, ensuring cross-device compatibility on both desktop and mobile viewports.
- Deployed a production-ready live demo on Netlify, demonstrating end-to-end ownership of the development and deployment lifecycle.

Education

Bachelor of Computer Applications (BCA)

2024 – 2028

DAV Centenary College, Faridabad, Haryana

- Building a strong academic foundation in software engineering, web technologies, data structures, and AI-powered tools.
- Actively developing real-world projects in Python and JavaScript alongside coursework to reinforce applied programming skills.

Certifications

- Generative AI Mastermind** – Outskill

Certificate of Completion

Technical Skills

- Languages & Web:** Python (Intermediate), JavaScript, HTML5, CSS3, C++, JSON
- Concepts:** Object-Oriented Programming (OOP), Responsive Web Design, Problem Solving, Data Handling, Clean Code Practices
- AI & Emerging Tech:** Generative AI, Prompt Engineering (Fundamentals)
- Tools & Platforms:** Git, GitHub, VS Code, Netlify, Vercel
- Languages:** Hindi (Native), English (Conversational)
